

Bona NordicSeal®

Scandinavian, white-washed look without adding stain or caustic bleach. Contains 2x white pigment.

Bona NordicSeal® is a waterborne sanding sealer that is formulated to provide a green alternative to a whitewashed floor without the use of caustic materials such as bleach. A unique way of customizing your floor from a light whitewash to successive coats, providing a truly Scandinavian look.

- Provides a whitewashed look to any wood
- Water clean-up
- Product can be applied with a T-bar or roller
- Seals the wood, preventing the finish from penetrating

Bona waterborne wood floor sealers offer excellent abrasability, fast dry times, and reduced potential for side bonding and tannin bleed. They are non-flammable and virtually odorless sealers.
